Risk Management:

- Will go over do's and don'ts of pledging

NOTES:

Thank everyone for being here, nervous and excited. Excited to see what happens update on what's happening changing throughout week and you feel confused about changes and we worked hard and best to accommodate to everything that came our way. Concerns through forms. One of the first thing was the concern about transition and field day on the same day and we haven't addressed not because we're not concern so we met with d WIL and basically with process being 5 weeks we don't have an extra day so the best thing to do was combine transition and field day on sat oc 28 in the morning transition because it is a serious meeting with rituals and following we move into field day. We felt it bed best to combine the time. The new schedule is posted on FB if not we can send ot you. We really tried hard to accom everyone schedule and this was the best version. Another concern amount of hours spent in meeting whether there is a specific requirement. Met with D Will so we're not doing anything out of our bylaws there is a claw in bylaw that specifies hours agreed upon. And the faculty said it was too excessive since we expect them to spend time outside of pledging so agreed to 1-1.5hr.

Katreen: Active guideline (read from form).

Jesise: violations taken seriously. First violation is leaking of info. We want pledge process to build pledges and we don't want any profanity and this includes teasing and embarrassing

pledges outside of meeting. Do not purchase or drink alcohol with pledges. Do not talk over pledge mast and provide constrictive criticism and refer questions to PT

Roel: violations--1st violation pay fine of \$35, one hall monitor and one shift per meeting and you also have to bring a pack of water for pledges for one meeting. If you commit a second violation then you will not be able to get a little for this pledging cycle. Third violation active cannot participate in pledge meeting for the remainder of the cycle. Any violation during the rush can be carried into pledging. Lasting integrity is a value harped on so we want to have successful pledging. Keep KY value with you at all times. Sign form in order to

An: same location or not for transition and field day? Goran: don't have a location yet. Checked AirBnB not efficient in space or in not good area so we couldn't book. Idea was doing it in the park but face problem of exposing ritual but we're working on still finding a location. But we are planning on having it at the same location.

Rohan: three violations or two violations? Update on violation, we consolidated violation two and three. First is fine and hall and water further violation will eliminate from getting a little and being dismissed from pledge meeting until pledge crosses. These violation have already been accessed so its been done already and will continue to be enforces.

Phil: this meeting is different from rest of meetings since we're in this building. For the rest of the meeting sr2 rm 130. This meeting is tone down. PDC behind us. So keep at certain volume so no yelling. We're going to maintain a few active demonstrate. Active contacted before hand will be called up to demonstrate and be loud but chapter cannot be loud. To give highlight, we cheer when they come in and give index card to see why they chose KY then move room. Once we start that time we want to show that we're intense and we feel its betting to show it with five people. We will have hall monitors. A greeting done by five actives won't take that long. Then we move to 3001. Normally we would have active being loud bringing the heat but we want to make sure we are serious but we build onto it. Please help us out to make this a great process.

Rohan: clarification, active stoic and serious with no yelling? Phil: yes. With that being said interview will happen early around wednesday. They have until tomorrow to come up with questions

Goran: separate folder for interviews but its not provide. Songs and signatures in red folder private. Since we have less time compared to previous ye4ar we didn't want to waste time to get to know actives so we're starting on the first day basically.

Phil: any questions?

Rohan: stay after for decompression? Phil: yes if you want

Jessie: we're going into 3001 phil does his thing than 3007 decompression and once all pledges go to the other room they do their elections then come back into 3048 for signatures.

Phil: after the hand off of red folder, we will move to 3001 to begin. Trainers will help guide pledges and arrange by height. Actives have a seat in the back where ever they want.

Clarissa: not sure how this goes for me since i'm a p1 Goran: will be filled in

Lan: are the table rearranged in the other room? Goran: walk in at 4:30 and this room we're creating a bridge and introduce ourselves to them. Index card to write why they chose kappa psi and what they expect from this process. Jessie and sabrina will go set up the room. Phil will do his intro.

Jessie: the room will be set up =the same the only difference is podium is moved. Tables cannot be moved.

Serenity: actives and pledge go in the same time.

Anna: we're not allowed to say anything.

Sara: as we're walking into the room, can we talk to them? Yes, meeting begins in the room. Once in the room intensity begins then. So it's fine to be friendly walking into the room.

kATREEN: pledge will walk in through the back we will do the bridge to celebrate and have pledge sign up for shirt sizes then they sit in the middle and actives fill out the side.

Goran: meeting in SR2 130. Implement buddy system since night fall happens earlier. Please stick around and walk with P1 because most will be parked over at welcome center. Please walk with p1s to and from meetings.

Olga: where we lining up? Actives line up stairs then walk up to podium.

Goran: last questions?

Phil: go change into kappa psi gear

Rohan: open forum?

Recognition:

- Serenity: thanks for helping with Hurricane Harvey shirts
- Rohan: thanks for attending lakewood
- Jessie: thanks for those who donated to PT; special shoutout to Grace for keeping an eye out for food
- Sam: Congrats to Minthong anthony nathan and daniel for placing
- Katreen: thanks to Daniel for the brothers of kappa psi
- Rohan: thanks for keeping rushing clean

Rohan: close meeting

Next meeting october 29, 2017
